CALL FOR INNOVATION

CONSTRUCTION TECH STARTUP FORUM 2022

www.rebuildexpo.com

WE BUILD THE FUTURE

It is a time of paradigm shift, with changes in housing formats, in the functionalities of offices, in hotel approaches designed to ensure the needs of their guests, or in the needs of hospitals to ensure a better patient experience.

The future of the sector comes from putting people at the center of the building, we have to build thinking about the well-being and health of the people who inhabit these spaces.

REBUILD is the main meeting forum to share, transmit, show and present all these new changes to all the agents of the value chain. All this in order to have an industrialized and more competitive, technological and digitized sector that once again becomes the economic engine of our country. Likewise, it is a priority duty to comply with the Sustainable Development Goals when creating new projects and investing in a more sustainable future for the environment and the future of humanity.

CONSTRUCTION TECH STARTUP FORUM

Construction Tech Startup Forum is the initiative that brings together the future leaders of the building industry through startups that surprise the world with innovative and disruptive solutions, capable of transforming the sector from advanced technology or with the proposal of new business models.

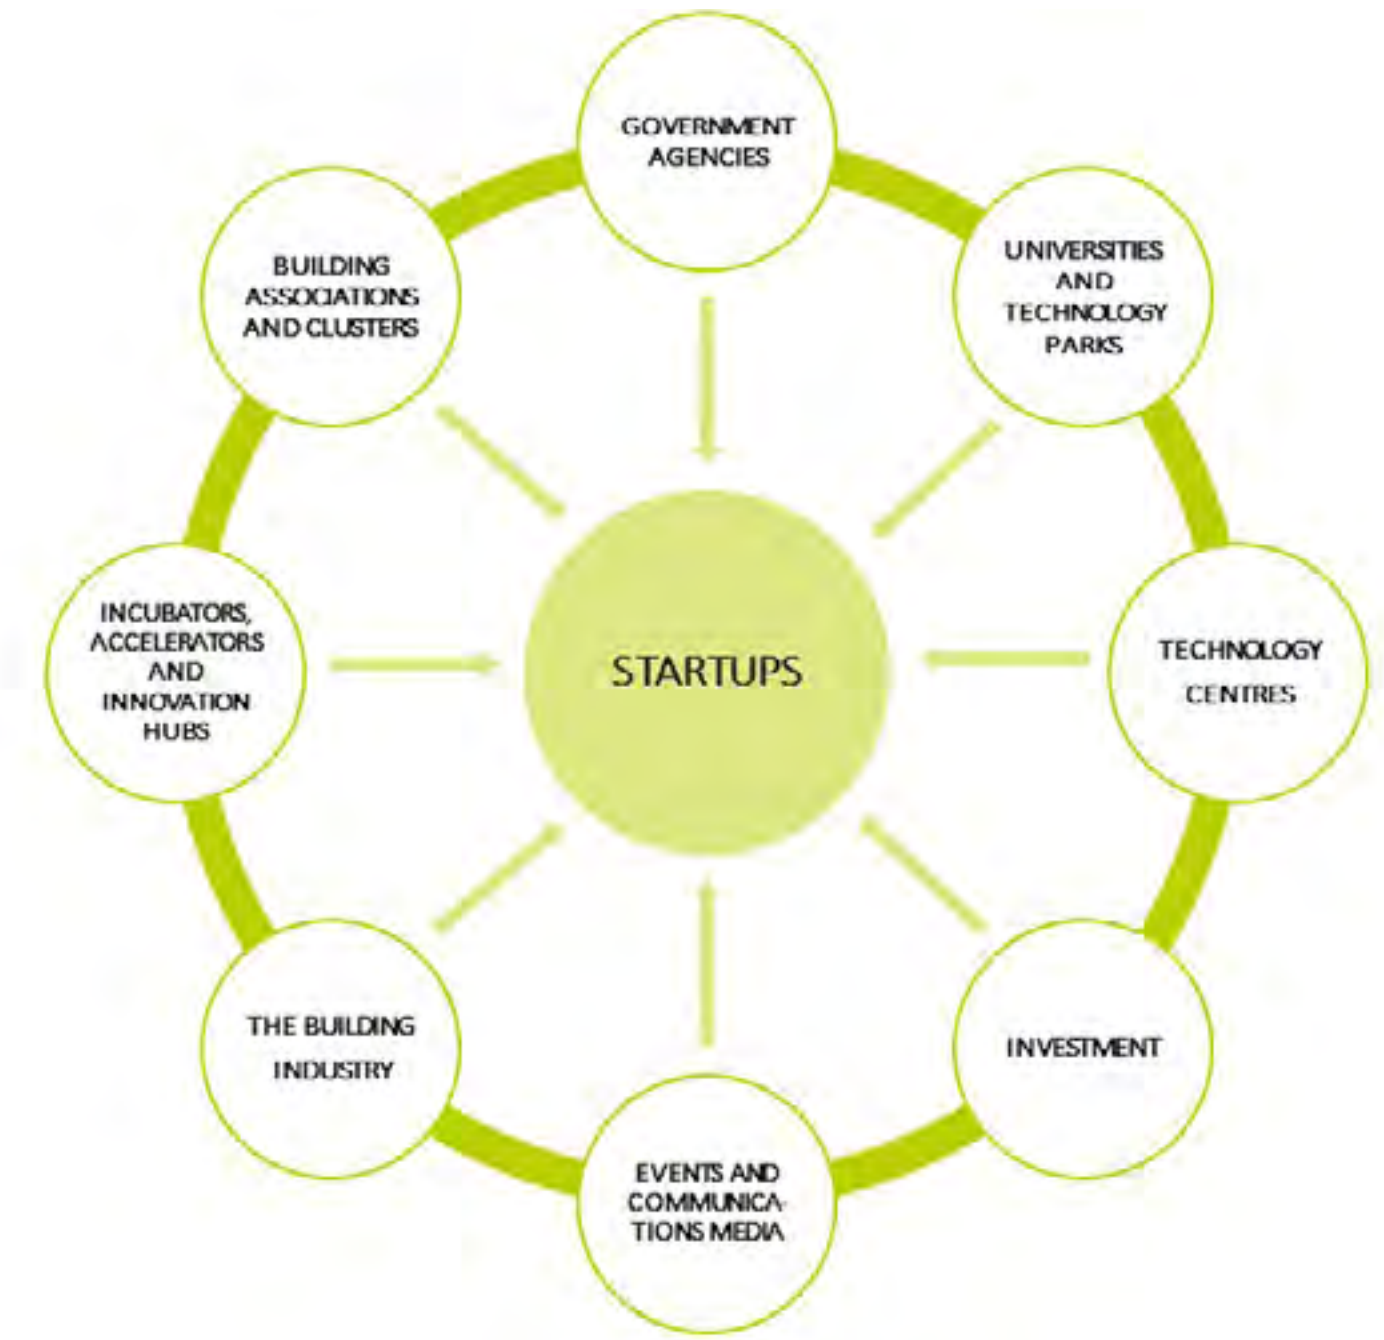

It is held within the framework of REBUILD, an event of innovation in architecture and building that will take place in Madrid - IFEMA from April 26 to 28, 2022.

The emergence of advanced technologies and the orientation towards a more efficient use of resources is facilitating the growth of new innovative solutions that impact the construction, rehabilitation, reform and

improvement of homes and buildings. The Construction Tech Startup Forum will showcase the best projects that are impacting the sector.

If you are a ConTech entrepreneur, participate!

AN INNOVATION ECOSYSTEM FOR THE THE BUILDING SECTOR

BENEFITS TO PARTICIPATE

Construction Tech Startup Forum recognizes the best entrepreneurs and startups that are making an impact in the REBUILD areas: advanced architecture, space design, construction 4.0, new materials, rehabilitation, renovation and improvement of buildings and housing.

Construction Tech Startup participants will have the opportunity to:

- Present their creative and innovative solution in the framework of the Congress of

Advanced Architecture and Construction 4.0 in front of an audience of potential clients and specialized partners in the sector.

- The selected startups will be shortlisted candidates for the Advanced Architecture Awards 2022 in the category determined by the Jury.
- All finalist startups will receive 2 3-day Premium VIP Pass invitations to attend REBUILD and the full conference program of the Congress.

EVALUATION CRITERIA

An Expert Committee formed by La Salle Technova Barcelona staff will evaluate the solutions presented according to the following criteria:

- The impact of the project for the building sector through one of the main axes of REBUILD: industrialization, digitalization and sustainability of new materials.
- Team with management capacity.
- Solutions with a high technological content will be positively valued - Potential sustainable growth.

- Company with a high innovation component.
- Influence of the solution on the economy and society in general.

The projects must be submitted through this link: <https://forms.gle/5ZC2JJ7bMivB641s9>

The Committee of Experts will order the projects according to their score from highest to lowest. Only the 10 best projects will be able to participate by presenting their solutions during the Construction Tech Startup Forum.

CONFIDENCIALITY

By submitting the Business Plan, applicants warrant to REBUILD that the information it contains is accurate and that it does not violate any third party contracts, including patents, copyrights, intellectual property, confidential information or any other privacy rights.

The organizers reserve the right to disqualify any entry that violates the spirit of this guide, the process or the rules of the event.

All materials submitted, including the business plan, must be appropriate for dissemination and must not contain any confidential information that entrepreneurs do not wish to make public.

KEY DATES

- El Construction Tech Startup Forum will be held within the framework of REBUILD on April 27, 2022.
- Projects can be submitted through the official platform until March 11, 2022.
- Selected projects will be notified by e-mail from March 21, 2022.
